## PROJECTS

**Portfolio** <https://majestic-beijinho-d2e4b2.netlify.app/> 

This portfolio shows Jay Panchal's frontend development skills with clean, responsive designs built using React. It highlights his work and knowledge of modern web technologies.

**Sonata Watch Website** <https://sonata-web.onrender.com/> 

Built a product showcase website for Sonata watches using HTML, CSS, JavaScript, and Bootstrap.

- Used media queries to ensure full responsiveness across all screen sizes.
- Designed a clean and elegant layout to reflect the premium brand style.

**Job Finder Website** <https://job-finder-cmqu.onrender.com/> 

- Built a modern and responsive job listing platform using HTML, CSS, JavaScript, Bootstrap, and Media Queries.
- Designed an intuitive user interface with clean job cards, filters, and categories for a smooth browsing experience.
